## A Report on seminar

**Name of Event:** Seminar on Noise Pollution

**Organizing Committee:** Department of Geography of Gobinda Prasad Mahavidyalaya, Amarkanan, Bankura, 722133.

**Date:** 22.06.2023

**Duration:** One hour (11:30 pm to 12:30 pm)

**Time:** 11:30 am onwards.

**Venue:** Seminar Hall.

**Beneficiary list:** Following candidates were benefited from the above event.

SL.NO.	NAME OF STUDENTS	UID. NO
1	BISHNU CHARAN MONDAL	21083119007
2	ANAMIKA GARAI	21083119001
3	DIBYA DAR	21083119002
4	KEYA DHIBAR	21083119012
5	KOUSHIK KARMAKAR	21083119003
6	SATHI DHIBA	21083119006
7	SATHI SEN	21083119009
8	Sayan Patra	22083119004
9	Akash Mal	22083119007
10	Rahul Rana	22083119002
11	Sweety Karmarkar	20081109001
12	Sonali Gorai	20081109012
13	Krishna Maji	21081103024
14	Jagriti Gorakshi	20082209005
15	Riya Goswami	20081109006
16	Joy Ghosh	21081206088
17	Maloy Gorai	21081201070
18	Badsha Singha	21081201024
19	Srikanta Mondal	22081209022
20	Prasanta Patar	22081209032
21	Barsha Ghosh	22081201173
22	Bhairab Ghosh	22081204030
23	Bristi Hader	22081204012

**Description of the Event:** A state level of Seminar was organised by the Department of Geography, Gobinda Prasad Mahavidyalaya, Amarkanan, Bankura, W.B, on 22nd June, 2023. Mr. Jahangir Hossain, Assistant Professor of Geography, Bankura Zilla Saradamani Mahavidyapith was invited as Resource Persons on the Seminar. The Programme started with the welcome address by the IQAC Coordinator Prof. Parimal Saren, at 11.30 am onwards.

Mr. Jahangir Hossain, had delivered a very nice and thought-provoking lecture on the topic " Noise Pollution." He presentation his lecture with the help of power point. Atmospheric pollution is not the only type of contamination that is harming living beings on the planet. According to the World Health Organization (WHO), it is one of the most dangerous environmental threats to health. And according to the European Environment Agency (EEA), noise is responsible for 12,000 premature deaths and 48,000 new cases of ischaemic heart disease every year.

Drivers honking the horn, groups of workers drilling the road surface, aircraft flying over us in the sky... Noise, noise and more noise. **Cities have become the epicentre of a type of pollution, acoustics**, which, although its invisibility and the fact that coronavirus crisis reduced it until almost yearn it, is severely damaging to human beings.

Not only does it hurt humans, it is bad for animals, too. According to the National Park Service (NPS) in the United States, **noise pollution has an enormous environmental impact and does serious damage to wildlife**. Experts say noise pollution can interfere with breeding cycles and rearing and is even hastening the extinction of some species.

The Programme was ended with the vote of thanks given by Mr. Pavel Sarkar, Organizer of the Programme at 12.30 P.M.
