## Action Taken Report on Students Feedback

The feedback forms for students were designed on the curriculum, infrastructure, facilities, evaluation process and execution of the syllabus of the course in the classes. The feedback forms were distributed to the students of the college through all departments and also were collected from them. The feedback provided by the students of all the departments on curriculum under this category has been analyzed. During this it was established that the curriculum is good enough and meets the academic needs of the students. The college is taking initiatives to conduct various seminars maintaining Covid protocols to enrich the knowledge of the students. Apart from that more extra classes are to be taken considering the load of syllabus. Academic Committee was suggested to make arrangements to schedule some extra classes for the sake of the students. But the college has decided that it will always cater the academic needs of the students based on the existing curriculum. The Academic Committee and Examination Committee were advised to take necessary actions for enriching the academic excellence.
